FLEXIBLE FAMILIES: PARENTING THROUGH SEPARATION AND DIVORCE **2017 SCHEDULE**

Empowering parents with information and skills, strengthening parent-child relationships, and fostering children's resilience and healthy development...

EACH SESSION WILL
OFFER PARENTS
INFORMATION ON...

- The emotional experience of separation and divorce for parents and children
- What parents can do to help their children adjust
- How to keep kids out of the middle of parental conflict
- Tools for parenting apart
- Understanding the legal process (custody, visitation, child support) and its effect on children
- Local Resources available to help families

We use the A.C.T. (Assisting Children Through Transition) For The Children Curriculum. It is an innovative prevention program that helps reduce the impact and long-term effects of divorce or separation on children by teaching their parents how to contain conflict and act in the best interest of their children.

It teaches parents specifically how to keep their children and family healthy. It teaches effective communication, problem solving, conflict resolution, establishing a business-like relationship with a former partner, and strengthening parent-child relationships.

Lectures, role-plays, video tapes, and discussion are the instructional tools used in the classroom.
